

VUELIVE Webinar

VUELIVE Webinar provides high-quality, interactive LIVE video broadcasting of multiple presenters and multi-media over any IP network to thousands of viewers. Presenters are able to share desktops, interact with each other and their audience through instant messaging, and receive immediate feedback before, during and after the event.

Why VUELIVE Webinar for your LIVE webinar solution?

- VUELIVE Webinar can be easily integrated into your existing web-based products and services portfolio
- VUELIVE's core technology, Lightning Strike™, is considered one of the best in the world for delivering high quality video at very low bandwidths
- VUELIVE's solutions are scalable and can easily expand to meet the needs of your growing business
- VUELIVE Webinar allows clients to customize the viewer experience in an infinite number of ways through open interfaces that allow branding, content personalization and targeted advertising

VUELIVE Webinar helps your clients:

- Expand their reach by increasing accessibility and frequency
- Lower their expenses by eliminating travel inconveniences and costs
- Manage their message by controlling how, when, and to whom content is distributed
- Increase their sales by generating more qualified leads
- Inform and train their employees consistently and efficiently
- Manage their crisis by informing audiences quickly

The possibilities are endless, from corporate announcements to press conferences and focus groups, VUELIVE Webinar reaches more for less!
